It has become bigger, it has more monsters, more weapons and more humor. And this is good. And it also has a more cruel Max. And that's good too. And it has a much cooler storyline. And that's good too. Max sets out to find his friends to save them from their enemies, but along the way, he learns more and more about who he is. But... this does not change the fact that it is still very bad. It was clear from the start that this was a bad game.
