5 Best VHD Backup Software To Back Up Windows VHD [Updated 2018] Read Review How to back up Windows VHD: Every workstation contains a copy of Windows VHD file, which can be used to create virtual machines to test out new versions of your favorite OS. However, to save you from the hassle of re-installing every time there is a minor software or OS update, you can create a complete clone of your operating system to another physical or virtual drive. Rufus and Windows Disk Image Writer are two popular options for creating VHDs and both programs are included in Windows. You can also use Windows Image Writer, but we recommend that you download a third-party program as they are more user-friendly and reliable. When creating a clone, you can choose to make a complete backup, which means that every system file, folder, and application is copied. Alternatively, you can choose to make a backup of the Windows Registry, which is essential when it comes to supporting new software updates. To avoid losing vital data, you should also choose to make a backup of Windows System32 folder, which is the location where all of the important system files reside. Why is it important to back up Windows VHD? If your PC is having issues, then it might be a good idea to make a clone of your 1d6a3396d6
