Voters in California will head to the polls Tuesday to vote on Proposition 55, a ballot measure that would require pharmaceutical companies to provide education on prescription costs. Voters are presented with two choices - both of which require the pharmaceutical industry to provide the education. Categories Archives As a child, I loved to play the Lone Ranger. The hero on the silver steed is a great hero who saves damsels in distress and there is nothing better than the Lone Ranger blasting into a pack of villains on horseback and kicking their butts all over the West. With that concept in mind, I have decided to pass on the wisdom of the West to the kids who read my posts. This week, we take an ideological ride through the Land of the Free on what we call the socalled "War on Drugs." Please click on the name of the state to read more about their drug laws. Like

Effects of fomivirsen, a phosphothioate-containing oligonucleotide, on herpes simplex virus type 1 replication. Fomivirsen, a phosphothioate-containing oligonucleotide, is a potent inhibitor of herpes simplex virus type 1 (HSV-1). Treatment of fetal rhesus monkey (Macaca mulatta) kidney (FRhK-4) cells with fomivirsen at concentrations of 1 and 10 microM reduced HSV-1 viral titers by 4 logs and 90%, respectively. In a mouse model of HSV-1 eye infection, fomivirsen at a dose of approximately 10 mg/kg given as an eye drop 4 times daily reduced the number of HSV-1-infected eyes by more than 99%, and the number of herpetic lesions by more than 99.9%. The results show that fomivirsen is highly effective in vivo, even in the treatment of a primary ocular infection. Inhibition of HSV-1 by fomivirsen was due to a reduction of the viral yield rather than inhibition of entry or the subsequent replicative phase of infection. Fomivirsen was effective in the treatment of a genital infection, too, with a reduction in the number of HSV-1-infected blisters after topical treatment. Thus, fomivirsen shows promise as an effective treatment for ocular and genital HSV infections. The Federal Communications Commission (FCC) is crafting new rules to protect net neutrality - which is the idea that all content should be treated equally by internet service providers (ISPs). This is an important step in making sure Americans are not treated like cattle by the greedy hands of the internet. But the FCC has pointed out that over 3 million comments have come into the FCC, and they expect up to 6 million people will be involved in the net neutrality controversy by the time comments expire on November 4. Mashable has taken a look at some of the best comments from Reddit's r/technology and r/netneutrality. The original trailer of the game was shown last month, revealing that the
