What's new in Euro Truck Simulator 2 - Road To The Black Sea:

Starring : Bo Harton and Harvey Norris 24.03.2016 The Black Sea is the second largest lake in the world. Imagine then how big the responsibility is to transport all those natural resources from the south of Bulgaria, over the Somardak marshland, through the Vacha canal, to the port of Burgas or Varna. At length this is exactly what Harvey, Bo and their customer faces... A realistic and challenging e-TRUCK simulation showcasing the Atlantic Ocean. On their journey through the world's second biggest lake they are to drive E35, TGM and Daewoo lowloader and mechanical excavator vehicles, from the former Soviet republics of Georgia and Ukraine. "I see GPS as the greatest development in the history of human beings. Global Positioning System has set free the human conscience from the four walls of the city", dreamboats @Harveynorris and @BoHarton from the former East Germany, somewhere in the German part of the former East Germany. And in the latest e-TRUCK simulations by the European Truck Simulator (ETS2) Studios, Bo and Harvey's e-dreams have come true. Starting in the new created game mode 'CARavan Night', both are driving their own caravan of a Finnish truck and a Finnish passenger van, and get to know the countries on their way to the Black Sea, mainly in Georgia and Ukraine. However, their romantic transport show has one major challenge: they have to fill their barges with coal, oil and gas, which you as a trucker-driver will collect on your way to the port. The statistics show that trips to the Black Sea go from 6.16 to 10.54 loading symbols per hour, like in this simulation. CURRENT PRESIDENT OF BULGARIAN ACCESS PLATFORM INTERNET SERVICE & ENETBOX LTD – HARVEY NORRIS "ETS2 is simply the best game I've ever played in my whole life. It's brilliant, simply brilliant. I've now sold more than 100,000 km with the game and I never thought that possible", Harvey Norris is a man with a very positive and resourceful attitude. During the first days of playing EURT16 his dream has come to reality with which he started playing the e-Trucks Version 1 all the way until the first 1.6.0 update. And besides that, working
