### What's new in Gimmick In The Chaos Dimension:

**March of the Eagles (), also known in France as Les Djadja and in German as Deutschlandlieder, is a German patriotic ballad composed between 1347 and 1353. It was used by the German Order as an anthem. With 53 stanzas written by probably Heinrich von Morungen and about 20 stanzas attributed to Gottfried von Straßburg, the song is the oldest popular piece of German music. Initially the march was written as a composition for the wedding of the Count of Meissen Margrave William V (d. 1340) and his second wife Elisabeth von Berengaud (d. 1345), a daughter of the Duke of Burgundy John III of Luxembourg (d. 1329). Titled The Merry Wedding, the first world premiere of the ballad was performed on May 8, 1347, during a wedding ceremony held at Worms Cathedral. After the music became the official of the German Order, the song was not only used for wedding events but also for**

**ceremonial events, and it became very popular. The original number of stanzas came down with the actual disposition of this institution during the Thirty Years' War and it is today about 54 stanzas. The political significance of the song is referenced by German historians and is considered an "ideological and political anthem of their national unity". History The Medieval World Probably the first words of the song are "Wienerluken" (Worms dukes) and "über Worms und Maus" (above Worms and Mose) mentioned in the first stanza as its most important place. The order of birth of the place names is according to the list of the nobility (Hochvogte), which is the list of the Counts of Meissen and the Liebfrauen zu Rheine. A fourteenth-century copy was probably composed in honor of the electors of Brandenburg, who on June 30, 1327 appointed John, Margrave of Meissen as his co-elect. The first lines of the ballad is written for the chronicle of the Counts of Meissen Margrave William V and his second wife, married on May 8, 1347 at Worms Cathedral. The lines were written by Heinrich von Morungen (c. 1320 - 1353) or another monk of Tegernsee, an unknown worker of the court of Count William and**
