The latest Hitman game from the masters of stealth and killing. The old Hitman series has been discontinued, but the franchise is now back with a remake. A remake of the classic games (Hitman 2 and Hitman 3) plus an additional game that is not in the old series. There is also the option to choose between three difficulty levels. In Total, we have 11 hitmans. Therefore, there are a total of 11 levels in the game. Hitman is in its purest form in Hitman Absolution, as we go back to the very beginning of the series to explore the cast of characters. We have a new protagonist that goes by the name of Agent 47, and not unlike old hitman 1 games, he is also on a contract. He is assigned to take out 3 target and they are located in 3 locations. The 3 locations are the sanctuary, the streets of San Francisco, and the cities of Hamburg and London. The game does lack some features from the old hitman 1 games. There is no matchmaking or set up for the contracts. We no longer have the ability to choose the weapons. However, we still have the ability to choose the suit for the contract. There is no supply and repair of weapons, and the suit can only be taken off the contract by taking a break or using the time limit. We still have the option to save at any point in the game, but you also have to make sure that you have an account on the official website for you to save. We also have the option to change the difficulty once the contract is started. The only side effects are that is you die, you lose all your money. The ultimate call of a hitman is that you must have the highest score in the contract. If you fail, you lose your money. I prefer to play the game on the normal setting, as I really enjoy the game. Each of the missions is just as simple and clean as the old hitman games. There is no jumping across rooms or shaking the camera. You just play through the entire game until you can complete all of the contracts. There are also optional contracts that will help you earn extra money, and they could be almost useless. Each mission usually has a couple of options, from the weapons and clothes, to what you should do on the mission. Most of the levels are pretty easy, but the levels are coupled with the enemies. Sometimes, it may take a couple of tries to get the right weapon,
