# HD Online Player (the Water Horse Legend Of The Deep F) Fixed

"The Water-Horse: Legend of the Deep," first released in 1937, tells the tale of a young man who in his youth, after learning to ride has written off to his Grandmother for a water horse. As a token of his fondness, he brings her a live one from the same pond, which he had heard from a fisherman, where it has been found alive and well for many years; this young man looks at the horse, has it harnessed into the cart, and takes it home; but after trying to get it over a stone wall, stumbles on a fallen tree, causing the horse to strike its head on a sharp rock, and is killed. Horrified, the grandmother gives up the dead horse; but the youth keeps the tail and wishes to bury it, but the next day he finds it is unburied, so digs up and brings it to his grandmother. After they are in bed, the grandmother asks what he wants with a water horse; the youth gives his reasons and says that the tail should be buried, but the old lady says it's a "one horse story." So the youth buries the tail, but does not like it because the horse has left a mark on the wall behind the coffin. Later the youth hears that the water is thick with fresh buried tails from a neighboring pond, and asks his grandmother about them; she had read of these tails, and that they were well known for more than four hundred years; she does not know how they were made. The youth digs them up and comes back to his grandmother with the tails. Then

---

she hears that the fish have all swum away. Next day, the youth goes back to the pond with the water horse, but the fish have all run away, and he goes home, sadder, but wiser, and says, "the water horse is gone to the legend of the deep and never will return."
