Wrestlefest Adventures, the sequel to the original is now available on the Google Play and Apple App Store. It's completely free to play, with no in-app purchases, and is available to all iOS devices. Not only is it free to play, but in addition to the original content, the iOS version features 20 additional WWE Superstars and WWE Legends. Not all the classic arenas have been ported to the iPhone version, but around 6 to 7 have been. This is part of the reason why it's almost impossible to get the original for iOS devices. Also, if you're thinking of making your very own WrestleFest Adventures clone, have a look at the original Superstar Wrestling title on the App Store. It currently has an overall rating of 2.5 stars from 40,000 ratings, and features half-lives and the stocky and steel-handed roster of the original, as well as the original semi-immortal arenas from WrestleFest. With WWE WrestleFest, you get a near word-for-word, arcade-style, free-to-play wrestling game that offers everything you love about wrestling from the WWE. And it includes the Undertaker! He once said, he would return for me. On July 29, he will, for the first time ever, return to the WWE Universe on my watch. The last time we saw him was at Wrestlemania. Have an account with the WWE Network? Log in and play straight away! 12 years after this game first appeared on the App Store, its all-new for iOS. WWE WrestleFest for iPhone and iPad will take your favorite WWE Superstars and Legends to a whole new level: fight, win and dominate in compelling 3D and 2D arenas. Become WWE Champion; build a legacy; and experience a WWE experience you can feel. WWE WrestleFest features instant unlock and upgrades so you can play as soon as you download.
