disufiroa say that they would explain about the strange object in a moment and that they only need time to get to their destination so they can leave pet forest and not be caught by the guards. as soon as they walk into the door that leads outside the facility, cerberus, disufiroa, and barioth starts to run into a hole in the ground, the three monsters throws off the ground

as they fly away from the facility. from the hole that they are flying into, there is a black hole in the ground, with a blue light coming out of it. a spirit appear out of the hole and say that they are late for an important event. cerberus says "yes, this is our first time there. this hole has been used to transport us to important events. we are excited to see whats inside." the spirit that appeared out of the hole looks like its body was made out of ice, it has a helmet shaped like a dragon head, and has a light blue aura. it says that he will take them to the next event, then he disappear into the black hole. as soon as the three monsters step out of the hole, they were all in a dark forest where there was very few people there. the forest is full of trees, the most

important being the magic tree, which is the first tree that they see. when they first enter the forest, they are moving in slow motion, they start running in slow motion when they notice that the forest is full of monsters of all sorts. there are monsters running around on the trees, monsters that are running on the ground, and monsters that are running on the ground. the monsters that are running on the ground are one of the most dangerous species the monsters are, they are called the dogmen, they are basically monsters that are half animal and half human. there are monsters that are running on the trees and they are called the bigfoot, they are monsters that are half animal and half giant. they can climb up the trees with their hands

and feet, and they have an arm that is like a pole where they can grab things. there are monsters that are running on the ground that are the most dangerous monsters, they are called the ogopogo, monsters that are half animal and half leviathan.
